# FIZ Karlsruhe participates in research assessment reform processes

**Since March 2024, FIZ Karlsruhe has been a signatory to the international CoARA and DORA agreements on the reform of research assessment**

3. April 2024 – By signing the CoARA (Coalition for Advancing Research Assessment) and DORA (Declaration on Research Assessment) agreements on the reform of research assessment, FIZ Karlsruhe has committed itself to a common direction for changes in assessment practice for research, researchers and research organisations. The overarching goal of the reform is to improve the quality and impact of research.

The CoARA agreement contains principles, commitments and a timeframe for the reforms in the signatory organisations. It also sets out principles for a coalition of organisations that are willing to work together to implement the changes. FIZ Karlsruhe will develop and implement an action plan for implementing the principles of the CoARA Commitment.

FIZ Karlsruhe – Leibniz Institute for Information Infrastructure is one of the leading addresses for scientific information and services and a member of the Leibniz Association. Our core tasks are to provide science and industry with professional research and patent information and to develop innovative information infrastructures, with, for example, a focus on research data management, knowledge graphs and digital platforms. To this end, we conduct

our own research, cooperate with renowned universities and research associations and are internationally and interdisciplinarily networked. FIZ Karlsruhe is a non-profit limited liability company and one of the largest non-academic institutions of its kind.
