Summary

FIZ PatMon – Efficient monitoring of global IP protection

Efficient monitoring of global legal protection of competitor and own patents is crucial for successful patent portfolio management.

Take advantage of FIZ PatMon to

- be alerted about opposition, licensing, ownership changes, withdrawal or grant to any patent of interest
- follow your patent application through the grant procedure
- watch your competitors' patents in additional countries in order to assess risks to your business
- monitor changes to the validity of your competitors' patents to initiate business decisions

FIZ PatMon – Worldwide monitoring of patent families and legal events

The Patent Monitoring Service

Highlights:

- A web-based service for worldwide monitoring of IP rights
- Facilitates highly customizable alerts – from very broad to most specific monitoring
- Based on FIZ Karlsruhe's value-add version of INPADOC, upgraded with register links
- Intuitive interface that integrates easily into your workflow

Summary

Definitions

- **Case** is an alert based on a single publication number
- **Monitoring profile** defines the monitoring scope: country coverage, publication types, legal status events
- **Case Owner** sets up cases, assigns monitoring profiles and receives alert results for himself. He can change or delete own cases and profiles and he can also choose **Case Watchers**.
- **Case Watcher** receives as an observer e-mail notifications and messages within FIZ PatMon for the cases he follows.
- **Case Administrator** is authorized to set up, edit or delete any cases or profiles for any **Case Owner**. He is also entitled to transfer a case or profile to another Case Owner.

Management of alerts and monitoring profiles

The screenshot shows the FIZ PatMon web interface. On the left is a navigation sidebar with options like 'New Case(s)', 'All Cases', 'Recently Updated', 'Recently Modified', 'Watched', 'Marked', 'Folders', and 'Monitoring Profiles'. The main area displays a table of cases with columns for Case ID, Case Name, Case Owner, Case Status, and Case Location. A modal dialog is open in the center, titled 'Öffnen von FIZ_PatMon_Selected_Cases.zip'. The dialog asks 'Wie soll Firefox mit dieser Datei verfahren?' and offers two options: 'Öffnen mit' (selected) and 'Datei speichern'. The 'Öffnen mit' option is set to 'Windows-Explorer (Standard)'. Below the dialog, a text box contains the text 'Export of several cases in a single zip-file'.
